| Adj. EBITDA $^{1}$ Margin | $10.8 \%$ |

- Conversion of the No. 3 paper machine in Q3 2018 at the Androscoggin Mill; machine's ability to swing between grades provides the company with greater flexibility in product offering
- USW and select trades ratified a modern master agreement across represented mills that supports the long term interests of our company and employees. We incurred $\$ 6 \mathrm{M}$ of ratification expense in the quarter for signing bonuses and settlement of various work arrangement issues

## Luke Mill

## Supply Demand $\triangle$

The decision to close the Luke Mill was driven by:

- Reduced demand together with rising imports of coated freesheet
- Losses due to high operating costs and reliability events
- Future capital requirements

## Impacts of the closure:

- Minimal disruption to target markets as majority of coated freesheet and C1S specialty products can be made across the remaining mills
- Coated freesheet annual production capacity reduction of 450,000 tons; mill produced 110,000 tons in Q1 2019
- Major maintenance spend to be reduced $\$ 6 \mathrm{M}$ to $\$ 7 \mathrm{M}$ in second half of 2019 as reflected in Major Maintenance slide
- Capital expenditure avoidance of $\$ 4 \mathrm{M}$ allocated for remainder of 2019
- Cash shutdown costs of $\$ 25 \mathrm{M}$ to $\$ 35 \mathrm{M}$, with severance and benefits costs of approximately $\$ 15 \mathrm{M}$ to $\$ 20 \mathrm{M}$ expected to be recorded in Q2 2019 and other shutdown costs of approximately \$10M to \$15M to be recorded in 2019
- Non-cash charges of $\$ 95 \mathrm{M}$ to $\$ 115 \mathrm{M}$ in accelerated depreciation/impairment for property, plant and equipment and related replacement parts and other supplies
- Ongoing costs to maintain the facility are projected to be $\$ 4 \mathrm{M}$ to $\$ 5 \mathrm{M}$ per year until disposition

## APPENDIX

## EBITDA and Adjusted EBITDA Definitions

EBITDA consists of earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA reflects adjustments to EBITDA to eliminate the impact of certain items that we do not consider to be indicative of our ongoing performance. We use EBITDA and Adjusted EBITDA as a way of evaluating our performance relative to that of our peers and to assess compliance with our credit facilities. We believe that EBITDA and Adjusted EBITDA are non-GAAP operating performance measures commonly used in our industry that provide investors and analysts with measures of ongoing operating results, unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies.

We believe that the supplemental adjustments applied in calculating Adjusted EBITDA are reasonable and appropriate to provide additional information to investors.
